

## Arun Rajendran takes on the role of Managing Director of SEGULA Technologies India

Arun RAJENDRAN (@SEGULA Technologies)

**Bangalore, January 20<sup>th</sup>, 2026** – SEGULA Technologies India has announced the nomination of Arun Rajendran as Managing Director.

Arun Rajendran joined SEGULA Technologies in August 2025 as Chief Commercial Officer. He brings more than 30 years of global leadership experience across engineering and digital services, having held senior leadership roles with leading organisations including HCL Technologies, Percipia Inc (part of the NTT Group), and Interactive One (formerly Altosys Software Technologies Limited). Throughout his career, he has successfully built and scaled businesses and led high-performing teams across the United States, Europe, the Middle East, and Asia.

As Managing Director, Arun Rajendran will drive SEGULA Technologies India's growth agenda and promote its capabilities globally. He will play a pivotal role in reinforcing SEGULA India's position as a trusted engineering and digital partner.

*"It is an honour to lead SEGULA Technologies India at a time when engineering and digital services are undergoing significant transformation. Having worked across global markets and industries over the past three decades, I strongly believe India will play an increasingly critical role in shaping the future of mobility and industrial innovation."* said Arun Rajendran, Managing Director, SEGULA Technologies India. *"My focus will be on building a strong, customer-centric*

*organisation, enhancing our engineering and digital capabilities, and positioning SEGULA India as a trusted partner for global clients through collaboration, quality, and execution excellence”*

SEGULA Technologies India is a global engineering centre focused on the mobility industry, that supports clients by delivering end-to-end solutions in product strategy definition, engineering process, value engineering and technology adoption. It has developed a strong expertise in key industries like automotive, aerospace and railway. SEGULA Technologies India employs more than 1 000 engineers on three main locations: Bangalore, Chennai and Pune. The company is fully equipped to serve customers globally, providing world-class services with a focus on quality, scalability and efficiency, ensuring seamless support across multiple time zones and regions.

#### **About SEGULA Technologies**

*SEGULA Technologies is a global engineering group that contributes to increasing competitiveness in all major industries: automotive, aerospace and defence, energy, rail, marine, life sciences and telecoms industries. The Group operates in more than 30 countries with 140 offices worldwide and maintains close customer relationships thanks to the expertise of 15,000 employees. As a leading engineering specialist that puts innovation at the heart of its strategy, SEGULA Technologies carries out major projects ranging from technical studies to industrial applications and production.*
